Version History

Version	Date	Revised By	Revisions
4.6.0	10/09/07	WFH	Modified format and changed content to reflect NPI and UB-04 changes per COMPdata, a product of Illinois Hospital Association and its affiliate AMR, on behalf of the State of Illinois Department of Public Health
4.6.0	10/23/07	WFH	Updated state report tip sheet images reflecting UB-04 format as a report option.
4.6.0	12/13/07	WFH	Added description of 1 st Individual Payer ID # and referenced 2 nd and 3 rd Individual Payers ID # in the General Assumptions and Specifications section of this document. See page 15 for additional information on Payer ID #.
4.6.0	12/14/07	WFH	On page 8, under Assumptions and Specifications, added section 5.I Populating Accounts with Insurance to the Report
4.6.0	12/19/07	WFH	Updated document to comply with COMPdata 10/01/2007 changes, i.e., Point of Origin/Source of Admission, Priority (Type) of Visit/Type of Admission, Patient County Code, and Crime Victim Occurrence code.
4.6.0	01/08/08	WFH	Updated document to clarify Patient County code and how it will be captured in SIS.
4.6.12	04/07/08	WFH	Modified document to update definition of "Patient's Reason for Visit Diagnosis Code," IHA Accepted Procedure Codes, 1st Revenue Code, Unit and Charges per COMPdata changes dated 02/28/2008.
4.6.28	07/17/08	WFH	Updated section 5.I. Populating Accounts with Insurance to the Report by adding sentence "Billed self-pay claims will be included in the report."
4.6.28	07/28/08	WFH	Per CSAT request, added commentary to section 5.I Populating Accounts with Insurance and Self-pay Accounts to the Report by adding how to force billed self-pay accounts to the state report.
4.7.02	02/02/10	SLG	Updated White paper to reflect the removal of specified reported CPT® codes from reportable list. [MQC #2222]
4.7.04	06/17/10	SLG	Updated White paper to reflect addition of new Workers' Comp. payer code 98950 for Individual Payer ID# entry in General Assumptions table.
4.705	07/20/10	SLG	<ul style="list-style-type: none"> Updated first 2 screens in Report Gen procedure Added disclaimer regarding state specific County codes versus FIPS codes in the Introduction section of this white paper. Updated CPT Code range entry in General Assumptions. Validated data elements against 2010 specs to ensure all were up to date and accurate.
4.705	08/30/10	WFH	Reformatted table of contents.
5.0.0.1	02/09/11	SLG	<p>Updates to elements in General Assumptions section per state specs:</p> <ol style="list-style-type: none"> Updated the Procedure Code entry with the most current list of Illinois approved Procedure Codes (Eff Date 01/01/2010). Removed Point of Origin code: "7 - Emergency Room". Added new Type of Bill codes to list of valid Type of Bill codes. Updated Payer Codes with new payer codes (98935 and 98945). Updated E-code entry to specify the correct location in SurgiSource for entering e-codes and added note for new reporting requirements for reporting E-codes for specific DX. Deleted note specifying no decimals – code does this automatically. Updated Principal DX entry to indicated new requirements for reporting E-codes for specific DX.
4.1.2011	04/01/11	WFH	<ol style="list-style-type: none"> Removed reference to Outpatient Surgical Procedure Table referenced in the Principle Procedure data element field specified on page 15 in the General Assumptions and Specifications section of this document. [MQC #2529]

Version	Date	Revised By	Revisions
			2. Added notes on Reporting guidelines in the Principle Procedure data element field on Page 15 in the General Assumptions and Specifications section of this document. [MQC #2529]
Build 1.0	06/20/11	SLG	<ol style="list-style-type: none"> Added update to Accident State in General Assumptions and Specifications section for entering new "99" Accident State code for Foreign Country. Added content for entering in Security module and selecting Accident State code (Place of Visit) in Patient Visit > Claims. [MQC 2595] Reviewed QA comments in MQC #2529 and implemented app. changes in General Assumptions and Specifications section. <ul style="list-style-type: none"> Reworded entries for principal Procedure, Prin Proc date, other procedures and other proc dates to remove required language and added notes to indicate that these fields are zero filled as of 04/01/11. Added entry for 2nd rev code (codes 2-22). Reworded entries for CPT/HCPCS Service Line Item (I-22) and date to be clearer and more accurate.
Build 2.0	07/19/11	SLG	<ol style="list-style-type: none"> Accident State – Revised content for data element entry in General Assumptions and Specifications section to specify that Clients should call CS for date entry needs for Accident State (based on CS/PM feedback. [MQC 2595] Added statement (per QA request) to specify when cases and revenue codes are populated to the report based on the new revenue code reporting range. [MQC #2529]
SIS 5.0.0.3	08/08/11		Accident State – Revised content for data element entry in General Assumptions and Specifications section to specify correct E-code range (810.0 – 819.9). [MQC #2489]
STR v3.0	10/03/11	SLG	Added note in General Assumptions and Specifications section to specify that positions 2130 through 2500 were populated due to error in specs and will now be blank filled. [MQC #2671]
STR v6.0	01/01/13	SLG	<p>Updated ILL ASC Whitepaper as follows:</p> <ol style="list-style-type: none"> Revenue Codes – Added new list of Imaging Rev codes based on specs then validated current list was correct. Added GUI path for entering Rev Codes in Rev Code table in Table Maintenance. E-Codes – Updated E-Code entry to indicate up to 8 E-codes can be populated to ILL ASC STR (5 additional added per State specs). Primary Insured's Unique Identifier – Added content for Primary Insured's Unique Identifier data element to General Assumptions section. Added Patient Last Name, Suffix, First Name, Middle Name, Patient Address, Patient City, Patient State, and Last Four Digits of the Patient SSN data elements to General Assumptions section. Patient Name Suffix not specified in white paper since the data element is optional (and per request since there is not a specific field in SIS for Suffix). Removed Principal Procedure Code /Date data elements, and 1st Other Procedures (I-24)/ Date (I-24) data elements. These segments are blank filled. Reordered data elements on General Assumptions section to match layout in specs (Illinois State specs dated 11/28/2012) and Ill state report. Validated that all codes from specs are accurately listed where included in the white paper. Added new screenshot and content for Report \$0 Charges options on File Output dialog box in the Generating the Illinois ASC Quarterly State Report section (step 7). Updates for MQC #2970. Updated Type of Bill and 1st Individual Payer ID# to specify that "Type of Bill" must = 830 for Charity/Non-Paymnt when "State Report ID" = 98912 (Charity). Update for MQC #2922

Version	Date	Revised By	Revisions
STR v9.0	07/30/13	SLG	<p>Generating the State Report</p> <ol style="list-style-type: none"> 1. Step 12 – Verified that the ILL STR website was correct. 2. General Assumptions Section 3. 1st Oth Clinician Type – Added entry for this element and specified how value is derived. 4. 2nd Oth Clinician NPI – The 2nd Oth Clinician NPI and Type does not currently pull to the report so removed entry for 2nd Oth Clinician NPI.
STR v10.0	11/14/13	SLG	<p>In the General Assumptions Section, Patient Zip Code, added note indicating that '99999' will be populated for Patient Zip Code field when a foreign country is entered in Country Name.</p>
STR v11.0	02/06/14	SLG	<p>General Assumptions</p> <ol style="list-style-type: none"> 1. Race entry – Added R6 race code for '2 or more races' to table in Race entry. 2. E-Code entry – Added note in () about name change for ICD9 Diagnosis Code form in SIS 6.0.x. 3. Accident State – Added note to remind user to check Auto Related box and entered app. E-code. Added note that Accident State will not pull if E-code is out of range or missing.
STR v13.0	09/23/14	SLG	<ol style="list-style-type: none"> 1. Added section that documents procedure for configuring State Reports module for populating ICD-10 codes. 2. General Assumptions Section <ul style="list-style-type: none"> • Principal Diagnosis – Updated GUI references to specify how to enter Prin. ICD-10 and/or ICD-9 DX codes for SIS 6.0.x users. For SIS 5.2.x users or less, added note that only icd-9 codes can be entered. • Added notes for how/when ICD10/ICD9 codes populate to report. • Other Diagnosis – Updated GUI references to specify how to enter Other ICD-10 and/or ICD-9 DX codes for SIS 6.0.x users. For SIS 5.2.x users or less, added note that only icd-9 codes can be entered. • Added notes for how/when Other ICD10/ICD9 codes populate to report. • ICD Diagnosis Code Version Qualifier – Added ICD-10 qualifier ('0') to list and formatted list of version qualifiers into a table to match rest of WP. • E-Code – Updated GUI references to specify how to enter ICD-10 and/or ICD-9 E-codes for SIS 6.0.x users. For SIS 5.2.x users or less, added note that only icd-9 codes can be entered. • Added notes for how/when ICD10/ICD9 E-codes populate to report. • Race entry – Added R7 race code for 'Declined/unknown' to table in Race entry. Revised statement some above table. • Ethnicity – Added E7 ethnicity code for 'Declined/unknown' to table in Ethnicity entry. Revised statement some above table. • Accident State – Added note that Accident State required if ICD-10 E-code on valid list populated to report. Provided link to valid list. Revised some notes to mention both ICD-9 and ICD-10. • Patient Reason for Visit Diagnosis Code (1 - 3) – Updated GUI references to specify how to enter ICD-10 and/or ICD-9 Reason for Visit DX codes for SIS 6.0.x users. For SIS 5.2.x users or less, added note that only icd-9 codes can be entered. • Added notes for how/when ICD10/ICD9 Reason for Visit DX codes populate to report.

Version	Date	Revised By	Revisions
STR v18.0	04/21/15	SLG	<p>General Assumptions Section</p> <ul style="list-style-type: none"> Principal Diagnosis – Added note that only ICD-10 codes should be populated after state's effective date. Revised GUI references for entering ICD-10 and/or ICD-9 Principal DX codes to remove version. <ul style="list-style-type: none"> Revised note for how/when ICD10 codes populate to report. Removed note for SIS 5.2 Other Diagnosis – Added note that only ICD-10 codes should be populated after state's effective date. Revised GUI references for entering ICD-10 and/or ICD-9 Other DX codes to remove version. <ul style="list-style-type: none"> Revised note for how/when ICD10 codes populate to report. Removed note for SIS 5.2. E-code – Added note that only ICD-10 codes should be populated after state's effective date. Revised GUI references for entering ICD-10 and/or ICD-9 E-codes to remove version. Patient Reason for Visit Diagnosis Code (1 - 3) – Added note that only ICD-10 codes should be populated after state's effective date. Revised GUI references for entering ICD-10 and/or ICD-9 Reason for Visit DX codes to remove version. <ul style="list-style-type: none"> Revised note for how/when ICD10 codes populate to report. Removed note for SIS 5.2.
STR v24.0	06/23/16	WFH	<ol style="list-style-type: none"> Updated the document footer with the new calendar year. Added Registered Trademark symbol [®] to the SurgiSource Name specified on cover page and the header. General Assumptions and Specifications <ul style="list-style-type: none"> On pages 17and 18, updated 1st Individual Payer ID # and name. On page 25, added a note to the Ethnicity data element, under General Assumptions and Specifications. On page 24, added note to the Race data element, under general assumptions and specifications.
STR v27.0	12/12/16	SMK	<ul style="list-style-type: none"> Updated document to new format/Title page. Updated the valid codes for the 1st Individual Payer ID# field under Data Elements.

Chapter 1: Introduction

Many states mandate that Outpatient Surgical Hospitals and Freestanding Ambulatory Surgery Centers (ASCs) submit discharge data on performed cases to their respective state governing authorities. This discharge data may be quarterly, semi-annually or annually generated and will most likely include patient demographics, surgical procedure and diagnoses codes, and billed payer data.

SurgiSource offers the ability to generate discharge information for Outpatient Surgical Hospitals and Ambulatory Surgery Centers via the State Reporting Module. The discharge information is populated in a report format that is drafted from respective state specifications.

Zip Code

- If a zip code upload was purchased for implementation of your Source Medical software, please be advised that the file provided is based off the Federal Information Processing Standards (FIPS) publication. You will need to review the data entry requirements provided by your state report agency, including those for county codes. Some states require a unique county code entry other than the FIPS code. See your state report specs for additional information.

1.1: Purpose

The purpose of this document is to assist Clients with troubleshooting any issue(s) that may arise when generating the Illinois ASC State Report.

1.2: Audience

This white paper was designed for SurgiSource users. It assumes users are familiar with SurgiSource and have knowledge of personal computers, a mouse, a Windows operating system and the Internet. If unfamiliar with the operation of the application, please take the time to reference other material to supplement your knowledge or contact your facility Business Office Manager, Systems Administrator, PC Support Technician, or Source Medical Client Services.

1.3: Related Documents

The scope of this document is limited to the functionality of the State Reports. Please refer to the following documentation for assistance with issues outside the scope of this document.

- SurgiSource User Manual
- Inpatient and Outpatient Data Coordinator Manual for Illinois, published by COMPData which is a product of the Illinois Hospital Association and its affiliate AMR (current version).

1.4: Support

For questions regarding this report, contact Client Services/Application Support:

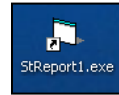

Application	Telephone	Fax	Email
SurgiSource	800-447-0104	Fax: (203) 949-6298	surgisourcesupport@sourcemed.net

Before scheduling an appointment, please make sure that the facility has a recent and valid backup of the database.

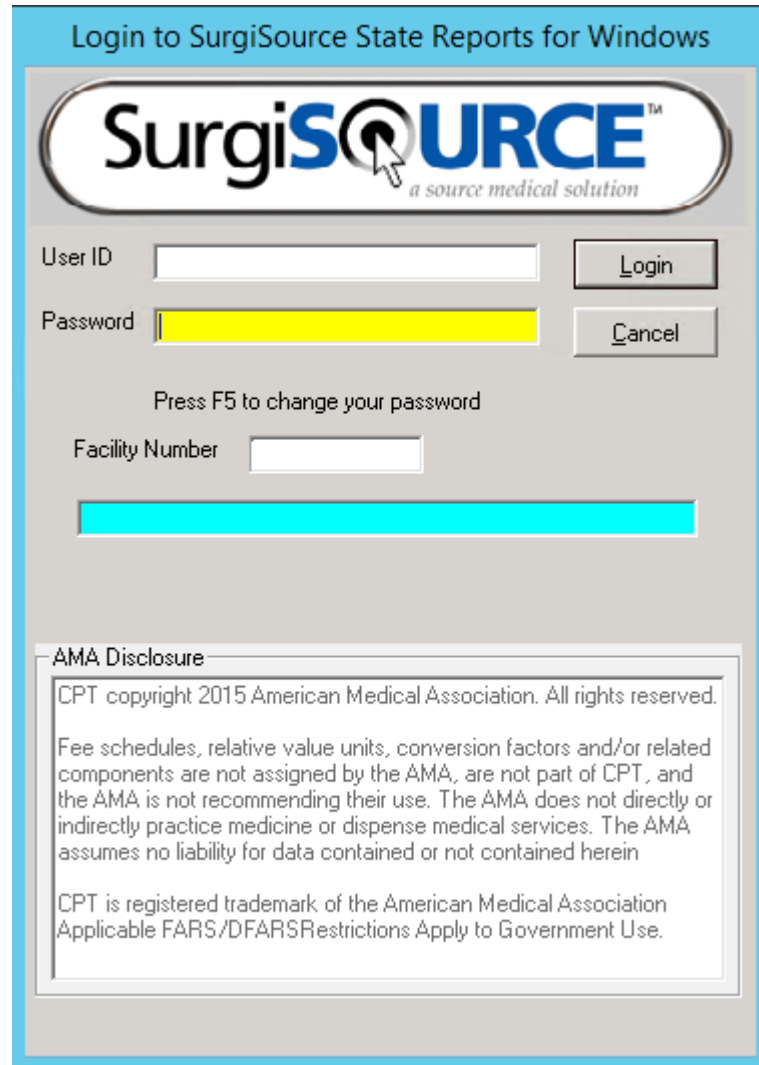

Chapter 2: Login and Navigation

2.1: Login

1. On the desktop, click the StReport1.exe icon.

The following screen displays.

The login screen for SurgiSource State Reports for Windows. It features the SurgiSource logo at the top, which includes a mouse cursor icon pointing at the 'S'. Below the logo are input fields for 'User ID', 'Password', and 'Facility Number'. The 'Password' field is highlighted in yellow. To the right of the 'User ID' and 'Password' fields are 'Login' and 'Cancel' buttons. Below the 'Facility Number' field is a red horizontal bar. At the bottom, there is a section titled 'AMA Disclosure' containing text about CPT copyright and usage restrictions.

2. Type the **User ID**.
3. Type the **Password**.
4. Type the **Facility Number**.

5. Click **Login**.

The **SurgiSource State Reports** module displays.

2.2: Menu Options

Below is a description of each of the menu options.

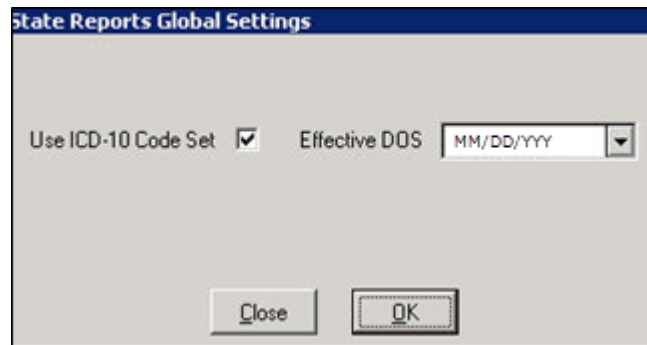

- **File:** **Login**, configure **Settings**, or **Exit** the module.
- **State Report:** Used to generate the report.
- **Module:** Switches to other SurgiSource modules, for example, Billing or Registration. You can access all of the SurgiSource modules from the State Report module; however, you cannot access State Reports from the SurgiSource main menu.
- **Window:** Modifies the format of the SurgiSource window, i.e., horizontal, vertical, etc.
- **Help:** Displays the Source Medical application version, license, and copyright information. Currently there is no online help associated with this application. See the current version of the SurgiSource User Manual.

Chapter 3: ICD-10 Codes Setup

State Reports Global Settings must be edited before generating the reports with ICD-10 data. This is a one-time setup.

1. Login the **State Reports** module.
2. Click **File > Settings**.

The **State Reports Global Settings** dialog box is displayed.

3. Select **Use ICD-10 Code Set** to generate the report using ICD-10-CM codes.
4. Enter the **Effective DOS (Date of Service)**.

The Effective Date may be driven by CMS implementation dates; however, facilities may use the date that they started using ICD-10 code sets, if applicable.

Note: The State Reports module is now configured to populate ICD-10 codes to the state report for Visits with DOS (dates of service) on or after the date entered in the **Effective DOS** field.

5. Click **OK**.

Or, click **Close** to cancel.

Chapter 4: Generating the HCFA 1500 Report

Note: To obtain security permissions for using the State Report module, access the **Security** module > **User** > **Permissions**.

To generate the **Illinois ASC Quarterly Report**:

1. Login the **State Reports** module.
2. Click **State Report** > **Generate**.
3. From the **State** list, select **Illinois**.

The following screen displays.

The screenshot shows the 'Generate Report' window with the following settings:

- State:** Illinois
- Generate** button is active.
- General** tab is selected.
- Generate By Quarter:**
 - ☐ Quarter 1 (selected)
 - ☐ Quarter 2
 - ☐ Quarter 3
 - ☐ Quarter 4
 - ☐ Specify Date Range
- Date Range:**
 - Starting Date: 12/13/2016
 - Ending Date: 12/13/2016
- File Compression:**
 - ☐ Use PKZip v2.0.4
 - ☒ Don't Compress
- Output Path:**
 - Drive: c:
 - Directory: C:\SISWIN (selected)
- Output Path And Filename:** C:\SISWIN\IL121316121316

4. In the **Generate by Quarter** region, select the desired **Quarter Date Period** radio button.

Note: Do not use **Date Range** region to generate the report.

Note: To generate a report by quarter, the date range field is automatically populated with the desired dates for the specified year.

Note: When a valid quarter of the year or date range is selected, the system will automatically enable the **Generate** button

5. Select the desired **File Compression**.

Note: To compress the State Report output file, select the Use PKZip v2.0.4 option. The PKZip software must be installed in the SISWIN Folder for this option to work.

6. In the **Output Path** field, accept the default **Output Path**.
7. Click **Generate**.

The **File Output** window appears.

8. In the **Report Output** region, select the **HCFA 1500** report format.
9. In the **Report \$0 Charges as** region, select how zero (0) dollar charge items are handled on the report:
 - **Warning** – When the **Warning** option is selected, every line item that has a zero (0) dollar charge entry will receive a warning (except for QDCs with 0 dollar charges). However, all line items with 0 dollar charges will be included on the report.
 - **Exclusion** – When the **Exclusion** option is selected, every line item that has a zero (0) dollar charge entry will be excluded from the report except for Quality Data Codes (QDCs) with 0 dollar charges (unless the **Exclude QDCs** box is checked).
 - **Exclude QDCs** – When the **Exclude QDCs** box under the **Exclusion** option is checked, all line items with zero (0) dollar charges will be excluded from the report including **QDCs** with 0 dollar charges.
 - The **Exclude QDCs** checkbox will only be enabled when the **Exclusion** option is selected.

10. Click **Next**.

The **Provider Information** window appears.

<input type="button" value="View Data"/> <input type="button" value="Create Report"/> <input type="button" value="Close"/>	

11. Make the desired changes:

- **Medicaid ID Number or IH4C Assigned:** Type the **Medicaid ID Number** or **IH4C Assigned Number** as appropriate for the provider.
- **Contact Person** – Type the name of the person who serves as a contact for the Facility.
- **Provider Name, Telephone Number, Address, City and ZIP Code:** Type the appropriate information for the Provider in each of these fields.
- **Period First Day and Period Last Day:** Type the dates indicating the **First Day** and **Last Day** of the reporting period.
- **Surgical Site ID - IH4C:** Type the Facility's **Surgical Site ID - IH4C** number. All ASCs and Freestanding Outpatient Surgery Centers should use 01 for Outpatient Surgical Services.
- **All CPT Codes or Exclude:** To include all CPT® codes on the report, select the **All CPT Codes** option. To enter a range of CPT codes to exclude from the report, select the **Exclude** option then enter the CPT code range in the **CPT From** and **To** fields.

12. Click **View Data** to review the data included on the report.

Page Setup **Print Preview** **Multi Line** **Hide Data**

Notes:

- The above window identifies the number of visits in the reporting period.
- The red colored cell indicates data is missing from the patient record.
- Use Page Setup, Print Preview, Multi-line and Hide Data buttons to navigate printing of the Error Report.
- Correct any errors and then **View Data**. Repeat until report is error free.

13. After reviewing the report data as appropriate, click **Create Report**.

Note: For errors in the report, exit the State Report Module and return to the Billing module to make corrections. When errors are corrected, generate the report again. Refer to [Data Elements](#) for information to correct the errors.

Note: If the report does not contain any errors, SurgiSource creates the report file, stores it in the directory location selected then displays the following summary screen:

Summary Information	
Number Of Patient Visits:	30
Date Of First Procedure Of Report Pd:	1/2/2007
Date Of Last Procedure Of Report Pd:	3/30/2007
Federal ID Number:	N/A
Report Starting Date:	01/01/2007
Report Ending Date:	03/31/2007

14. If no errors are found, the **Summary Info** Page displays specific information about the report period, e.g., number of patient visits, date of first and last procedure in the report, the Facility's **Federal Tax ID**, and report start and end dates.

Note: The report can be printed by clicking the **Print Summary** button.

15. Two text files generate to the output path selected above:

1. [Output file](#)
2. [Error file](#)

Note: The Output file can be submitted electronically using the following website: <http://www.compdatainfo.com/>. It is the responsibility of the Client to negotiate method of transmission of this report. Please see the current **Inpatient and Outpatient Data Coordinator Manual for Illinois** for more information on the submission of the Illinois ASC state report.

Chapter 5: Generating the UB04 Report

Note: To obtain security permissions for using the State Report module, access the **Security** module > **User** > **Permissions**.

To generate the **Illinois ASC Quarterly Report**:

1. Login the **State Reports** module.
2. Click **State Report** > **Generate**.
3. From the **State** list, select **Illinois**.

The following screen displays.

The screenshot shows the 'Generate Report' window with the following settings:

- State:** Illinois
- Generate By Quarter:** Quarter 1 (selected)
- Date Range:** Starting Date: 12/13/2016, Ending Date: 12/13/2016
- File Compression:** Don't Compress (selected)
- Output Path:** Drive: c:, Directory: C:\SISWIN
- Output Path And Filename:** C:\SISWIN\121316121316

4. In the **Generate by Quarter** region, select the desired **Quarter Date Period** radio button.

Note: Do not use **Date Range** region to generate the report.

Note: When generating a report by quarter, the date range field is automatically populated with the desired dates for the specified year.

Note: When a valid quarter of the year or date range is selected, the system will automatically enable the **Generate** button

5. Select the desired **File Compression**.

Note: To compress the State Report output file, select the Use PKZip v2.0.4 option. The PKZip software must be installed in the SISWIN Folder for this option to work.

6. In the **Output Path** field, accept the default **Output Path**.
7. Click **Generate**.

The **File Output** window appears.

8. In the **Report Output** region, select **UB-04 Report**.
9. Type the **IHA Provider #** (IHA Provider Data Collection ID #).
10. In the **Report \$0 Charges as** region, select how zero (0) dollar charge items are handled on the report:
 - **Warning** – When the **Warning** option is selected, every line item that has a zero (0) dollar charge entry will receive a warning (**except** for QDCs with 0 dollar charges). However, all line items with 0 dollar charges will be included on the report.
 - **Exclusion** – When the **Exclusion** option is selected, every line item that has a zero (0) dollar charge entry will be excluded from the report **except** for Quality Data Codes (QDCs) with 0 dollar charges (unless the **Exclude QDCs** box is checked).
 - **Exclude QDCs** – When the **Exclude QDCs** box under the **Exclusion** option is checked, all line items with zero (0) dollar charges will be excluded from the report including **QDCs** with 0 dollar charges.
 - The **Exclude QDCs** checkbox will only be enabled when the **Exclusion** option is selected.
11. Click **Next**.

12. If the report is error free, the system will save the report to the designated **Output Path**.

If the **UB-04 Report** is missing required information, the system will display the following “**Warning**” message:

Note: If the above message appears, exit the **State Report** module and return to the SurgiSource **Billing** module to make corrections. Continue this process until the report is error free.

13. Two text files generate to the output path selected above:

- [Output file](#)
- [Error file](#)

14. **Note:** The Output file can be submitted electronically using the following website: <http://www.compdatainfo.com/>.

It is the responsibility of the Client to negotiate method of transmission of this report. Please see the current **Inpatient and Outpatient Data Coordinator Manual for Illinois** for more information on the submission of the Illinois ASC state report.

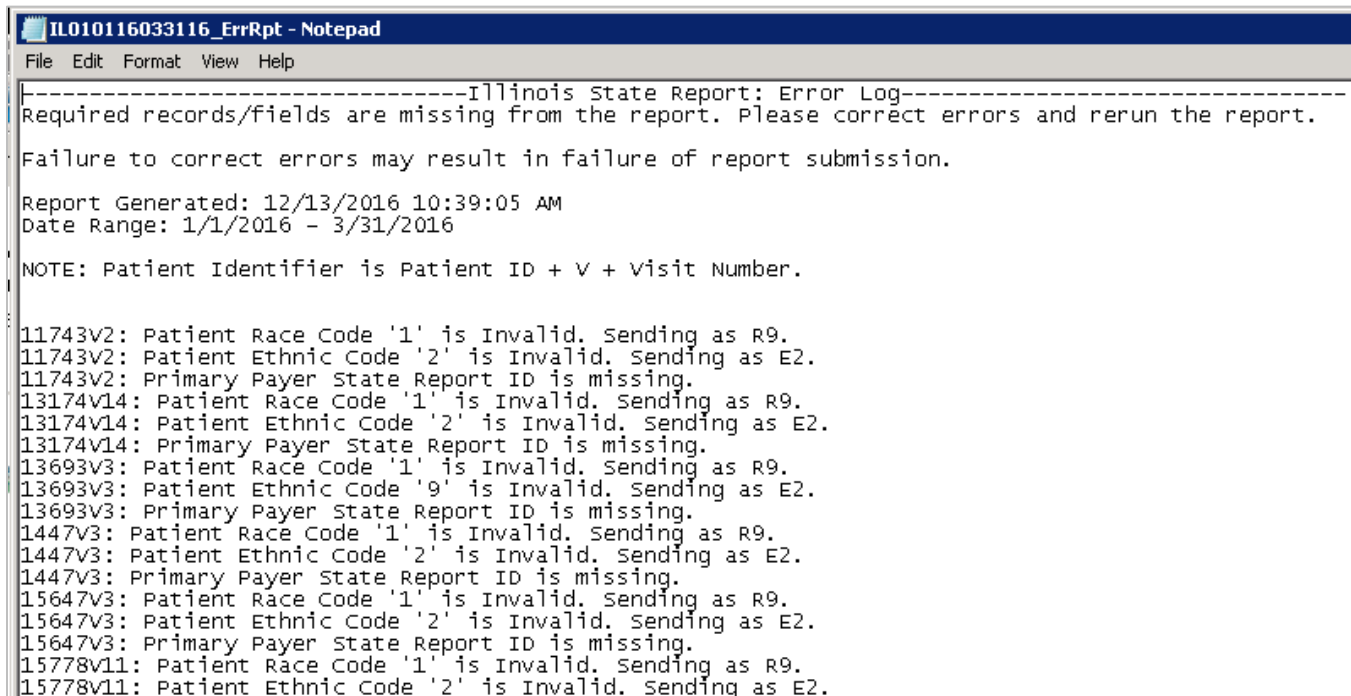

Chapter 6: About the Error report

An Error Report text file is generated and sent to the designated **Output Path** specified in the **Output Path** field. The text file has the following naming convention: IL**MMDDYY****MMDDYY**_ErrRpt.txt.

- The first (in yellow) MMDDYY is the beginning period date.
- The second (in green) MMDDYY is the ending period date.

The omission of certain fields may result in an error message. All errors display in this report. Refer to [Data Elements](#) to repair the errors.

Below is an example of the error log.

```

7.1: Data Elements

To get started with generating your ASC and Outpatient state report, verify that the following data has been populated in SurgiSource, as appropriate:

Field	Description
Patient DOB	Verify and/or specify Date of Birth in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Personal Data page > Date of Birth field. Select patient and enter birth date. Click Update to save patient record. The Patient Birth Date must be entered as MMDDYYYY.
Patient Sex	Verify and/or specify Patient Sex in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Personal Data page > Gender drop-down. Select patient and specify Patient Sex from the Gender drop-down. Click Update to save the patient record. This is a required field and must be specified as M , F or U .

Field	Description						
Patient ZIP Code	<p>Refers to the Zip Code of the patient's principal residence at the time of admission. Verify and/or specify ZIP Code in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Address, Phone page > Zip field. Select patient and enter the ZIP Code. Click Update to save patient record.</p> <p>Verify and/or specify ZIP Codes for the Facility in SurgiSource from the Security module > Utility Menu > Table Maintenance > ZIP Code table. Update the Zip Code entry (and other fields) as appropriate then click Update to save the change.</p> <p>Valid IL Zip Codes for Foreign and Unknown:</p> <table data-bbox="537 554 781 674"> <thead> <tr> <th>Code</th><th>Description</th></tr> </thead> <tbody> <tr> <td>99999</td><td>Foreign</td></tr> <tr> <td>00000</td><td>Unknown</td></tr> </tbody> </table> <p>Notes:</p> <ul style="list-style-type: none"> • A ZIP Code must be entered for all patients. • If the Patient is homeless, check the Homeless box on the Address, Phone tab. As a result, '00000' will be populated to Patient Zip Code on the state report (indicating a status of Unknown). • When a foreign country (not 'US') is selected (or entered) in the Country Name look up menu on the Address, Phone tab, '99999' will be populated to Patient Zip Code on the state report (indicating a status of Foreign). 	Code	Description	99999	Foreign	00000	Unknown
Code	Description						
99999	Foreign						
00000	Unknown						

Field	Description																																																								
1st Individual Payer ID#	<p>Refers to the expected principal payment source. You may enter the Payer ID # by using Fed ID #, Insur Plan #, or BCBS #. These ID numbers may be 3, 5 or 9 digit codes.</p> <p>Valid codes are:</p> <table border="1"> <thead> <tr> <th>Code</th><th>Description</th></tr> </thead> <tbody> <tr><td>40015</td><td>Blue Cross Blue Shield Commercial HMO</td></tr> <tr><td>40010</td><td>Blue Cross Blue Shield Commercial (POS, PPO, etc.)</td></tr> <tr><td>40025</td><td>United Healthcare Commercial HMO</td></tr> <tr><td>40020</td><td>United Healthcare Commercial (POS, PPO, etc.)</td></tr> <tr><td>40035</td><td>Aetna Commercial HMO</td></tr> <tr><td>40030</td><td>Aetna (POS, PPO, etc.)</td></tr> <tr><td>40155</td><td>Humana Commercial HMO</td></tr> <tr><td>40150</td><td>Humana Commercial (POS, PPO, etc.)</td></tr> <tr><td>40165</td><td>Health Alliance Commercial HMO</td></tr> <tr><td>40160</td><td>Health Alliance Commercial (POS, PPO, etc.)</td></tr> <tr><td>98910</td><td>Medicare</td></tr> <tr><td>98911</td><td>Black Lung</td></tr> <tr><td>98912</td><td>Charity</td></tr> <tr><td>98913</td><td>Hill Burton Free Care</td></tr> <tr><td>98914</td><td>Champus/Tricare</td></tr> <tr><td>98915</td><td>Champva</td></tr> <tr><td>98916</td><td>In State Medicaid</td></tr> <tr><td>98917</td><td>Out of State Medicaid</td></tr> <tr><td>98918</td><td>Self Pay/ Payer Name should be "Self Pay"</td></tr> <tr><td>98919</td><td>Miscellaneous/Other - Use with caution</td></tr> <tr><td>98920</td><td>Commercial Insurance (PPO, POS, etc.) Other than 400 series</td></tr> <tr><td>98925</td><td>Commercial HMO Other than 400 series</td></tr> <tr><td>98930</td><td>Self-Administered Plan</td></tr> <tr><td>98935</td><td>Medicaid Managed Care</td></tr> <tr><td>98945</td><td>Medicare Managed Care</td></tr> <tr><td>98950</td><td>Workers' Compensation</td></tr> <tr><td>00000</td><td>Discontinued as of 10/01/2016 discharge use 98919</td></tr> </tbody> </table> <p>Verify and/or specify the Payer ID # in SurgiSource from the Billing module > Payer > Profile > Regulatory Data page > State Report ID field.</p> <p>Notes:</p> <ul style="list-style-type: none"> The Payer ID # must be added for 2nd and 3rd Individual Payer IDs, if applicable. When '98912' (Charity) is specified for Individual Payer ID# in the State Report ID field, '830' will be populated for Type of Bill. 	Code	Description	40015	Blue Cross Blue Shield Commercial HMO	40010	Blue Cross Blue Shield Commercial (POS, PPO, etc.)	40025	United Healthcare Commercial HMO	40020	United Healthcare Commercial (POS, PPO, etc.)	40035	Aetna Commercial HMO	40030	Aetna (POS, PPO, etc.)	40155	Humana Commercial HMO	40150	Humana Commercial (POS, PPO, etc.)	40165	Health Alliance Commercial HMO	40160	Health Alliance Commercial (POS, PPO, etc.)	98910	Medicare	98911	Black Lung	98912	Charity	98913	Hill Burton Free Care	98914	Champus/Tricare	98915	Champva	98916	In State Medicaid	98917	Out of State Medicaid	98918	Self Pay/ Payer Name should be "Self Pay"	98919	Miscellaneous/Other - Use with caution	98920	Commercial Insurance (PPO, POS, etc.) Other than 400 series	98925	Commercial HMO Other than 400 series	98930	Self-Administered Plan	98935	Medicaid Managed Care	98945	Medicare Managed Care	98950	Workers' Compensation	00000	Discontinued as of 10/01/2016 discharge use 98919

XX7	Updates and overwrites Original Record at COMPdata																
XX8	Deletes original Record at COMPdata																
Principal Diagnosis	<p>The Principal Diagnosis is a required field and must be a valid ICD code established after admission as responsible for outpatient care necessity.</p> <p>Note: Effective 10/1/2015, the state of Illinois will only accept a valid ICD-10 code (established after admission as responsible for outpatient care necessity) for Principal Diagnosis on the report.</p> <p>Verify and/or specify Principal Diagnosis in SurgiSource from the Billing module > Visit menu > Clinical Log form > Procedure and Diagnosis tab. Enter ICD-10 codes on the ICD-10 Diagnosis tab and/or ICD-9 codes on the ICD-9 Diagnosis tab (as applicable). Click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> Principal Diagnosis must be consistent with patient age and gender. ICD-10 codes will be populated to the report if present on the Visit, the State Reports module has been configured to populate ICD-10 codes and the specified effective date for populating ICD-10 codes has been met or exceeded. If the Principal Diagnosis is V30 - V39 (with 0 as 4th digit), Admission Type must be 4. Effective with 07/01/10 cases, the IDPH (Illinois Department of Public Health) requires additional reporting of misadventures (injuries and adverse events). For more information on current Diagnosis and E-code reporting requirements, please refer to the current Illinois state reporting specifications. <p>For more information on E-Codes, please see the E-Code entry in this table.</p>																

Field	Description
Other Diagnosis (1 – 24)	<p>Refers to the additional condition that coexists at admission or develops during hospital stay, and has effect on the treatment provided or length of stay (LOS). Up to 24 Other Diagnosis may be added.</p> <p>Note: Effective 10/1/2015, the state of Illinois will only accept a valid ICD-10 code (that indicates the additional condition that coexists at admission or develops during hospital stay) for Other Diagnosis on the report.</p> <p>Verify and/or specify Other Diagnosis in SurgiSource from the Billing module > Visit menu > Clinical Log form > Procedure and Diagnosis tab. Enter ICD-10 codes on the ICD-10 Diagnosis tab and/or ICD-9 codes on the ICD-9 Diagnosis tab (as applicable). Click Update to save the change.</p> <p>Note: ICD-10 codes will be populated to the report if present on the Visit, the State Reports module has been configured to populate ICD-10 codes and the specified effective date for populating ICD-10 codes has been met or exceeded.</p>

Field	Description																																																		
Patient Discharge Status	<p>Refers to the patient's status at the time of discharge. Verify and/or specify Patient Discharge Status in SurgiSource from the Billing module > Visit menu > Patient Visit form > Admission page > Discharge Status look up menu.</p> <p>Valid Codes are:</p> <table> <thead> <tr> <th>Code</th><th>Description</th></tr> </thead> <tbody> <tr><td>01</td><td>Discharged to home or self-care (routine discharge)</td></tr> <tr><td>02</td><td>Discharged/transferred to another short term general hospital for inpatient care</td></tr> <tr><td>03</td><td>Discharged/transferred to SNF w/Medicare Certification in anticipation of covered skilled care</td></tr> <tr><td>04</td><td>Discharged/transferred to ICF</td></tr> <tr><td>05</td><td>Discharged /transferred to a Designated Cancer Center or Children's Hospital.</td></tr> <tr><td>06</td><td>Discharged/transferred to home under the care of organized home health service organization in anticipation of covered skilled care.</td></tr> <tr><td>07</td><td>Left against medical advice or discontinued care</td></tr> <tr><td>09</td><td>Admitted as inpatient to this hospital</td></tr> <tr><td>20</td><td>Expired</td></tr> <tr><td>21</td><td>Discharged/transferred to court / law enforcement</td></tr> <tr><td>30</td><td>Still patient</td></tr> <tr><td>40</td><td>Expired at home (Medicare, CHAMPUS claims only for hospice care)</td></tr> <tr><td>41</td><td>Expired in a medical facility (Medicare, CHAMPUS claims only for hospice)</td></tr> <tr><td>42</td><td>Expired – place unknown (Medicare, CHAMPUS claims only for hospice care)</td></tr> <tr><td>43</td><td>Discharged/transferred to a Federal hospital</td></tr> <tr><td>50</td><td>Hospice – home</td></tr> <tr><td>51</td><td>Hospice – medical facility</td></tr> <tr><td>61</td><td>Discharged/transferred within this institution to hospital-based Medicare approved swing bed</td></tr> <tr><td>62</td><td>Discharged/transferred to an inpatient rehabilitation facility (IRF) including rehab distinct part units of a hospital</td></tr> <tr><td>63</td><td>Discharged/transferred to a Medicare certified long term care hospital (LTCH)</td></tr> <tr><td>64</td><td>Discharged/transferred to a nursing facility certified under Medicaid but not certified under Medicare</td></tr> <tr><td>65</td><td>Discharged/transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital</td></tr> <tr><td>66</td><td>Discharged/transferred to a Critical Access Hospital (CAH)</td></tr> <tr><td>70</td><td>Discharged/transferred to another Type of Health Care Institution not defined elsewhere in this code list.</td></tr> </tbody> </table> <p>Verify and/or specify Discharge Status Codes and Descriptions in SurgiSource from the Security module > Utility Menu > Table Maintenance > Patient Disposition Code table. Code	Description																																																		
01	Discharged to home or self-care (routine discharge)																																																		
02	Discharged/transferred to another short term general hospital for inpatient care																																																		
03	Discharged/transferred to SNF w/Medicare Certification in anticipation of covered skilled care																																																		
04	Discharged/transferred to ICF																																																		
05	Discharged /transferred to a Designated Cancer Center or Children's Hospital.																																																		
06	Discharged/transferred to home under the care of organized home health service organization in anticipation of covered skilled care.																																																		
07	Left against medical advice or discontinued care																																																		
09	Admitted as inpatient to this hospital																																																		
20	Expired																																																		
21	Discharged/transferred to court / law enforcement																																																		
30	Still patient																																																		
40	Expired at home (Medicare, CHAMPUS claims only for hospice care)																																																		
41	Expired in a medical facility (Medicare, CHAMPUS claims only for hospice)																																																		
42	Expired – place unknown (Medicare, CHAMPUS claims only for hospice care)																																																		
43	Discharged/transferred to a Federal hospital																																																		
50	Hospice – home																																																		
51	Hospice – medical facility																																																		
61	Discharged/transferred within this institution to hospital-based Medicare approved swing bed																																																		
62	Discharged/transferred to an inpatient rehabilitation facility (IRF) including rehab distinct part units of a hospital																																																		
63	Discharged/transferred to a Medicare certified long term care hospital (LTCH)																																																		
64	Discharged/transferred to a nursing facility certified under Medicaid but not certified under Medicare																																																		
65	Discharged/transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital																																																		
66	Discharged/transferred to a Critical Access Hospital (CAH)																																																		
70	Discharged/transferred to another Type of Health Care Institution not defined elsewhere in this code list.																																																		

Field	Description
1st Revenue Code	<p>Refers to the code that identifies specific accommodation, ancillary service or unique billing calculations or arrangements.</p> <p>Verify and/or specify Revenue Codes in SurgiSource for a Patient Visit from the Billing module > Account menu > Enter Charges form > Billed Services page > Billed Services panel.</p> <p>Note: The Revenue Code can also be attached to CPT Codes from the Facility > CPT® Code > Revenue Code field.</p> <p>Verify and/or specify Revenue Codes for the Facility in SurgiSource from the Security Module > Utility Menu > Table Maintenance > Revenue Code table. Update Revenue Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> If this field is left blank, the system will not include this case in the state report output file. Surgical procedure data is to be reported (for generally, those cases that were conducted in a surgical suite or invasive procedure suite) based on a specific revenue code range. <p>The patient record must contain one of the below specified revenue codes to qualify for inclusion in the IL Outpatient OS database:</p> <p>036X – Operating Room Services 048I – Cardiac Cath Lab 049X – Ambulatory Surgical Care 051I – Pain Management 0723 – Circumcision 075X – GI Services (Endo/Colo suite, etc.) 079X – Extra-Corporeal Shock Wave Therapy (formerly Lithotripsy)</p> <p>Imaging Revenue Codes 032X – Radiology Diagnostic 0340, 0341, 0343, 0349 – Nuclear Medicine General and Diagnostic 035X – CT Scan 040X – Other Imaging Services 0483 – Echocardiogram Sonography 061X – MRI</p> <ul style="list-style-type: none"> A case is pulled to the state report if it includes a revenue code that falls within the indicated range. Also, if additional codes are attached to the case that do not fall within the range, all revenue codes for the claim are populated to the report without any exclusions (as per the state reporting specifications). <p>However, if a case only includes revenue codes that do not fall within the indicated reporting range, that case does not pull to the report.</p>
Units of Service	<p>Refers to the quantitative measurement of services rendered by revenue code.</p> <p>Verify and/or specify Units of Service in SurgiSource from the Billing module > Account menu > Enter Charges form > Billed Services page > Billed Services panel.</p>
Charges	Refers to the total charges for the corresponding revenue code. This value is system generated.
2nd Revenue Code (2-22)	See 1st Revenue Code entry above.

Field	Description
2nd Units of Service (2-22)	See Units of Service above.
2nd Charges (2-22)	See Charges above.
23rd Revenue Code (Total Charges for Patient)	This value is system generated. Revenue Code '0001' (Total Charges for Patient) is reported in this field. Note: Revenue Code 23 is required when the number of pages of the UB04 is greater than one (1).
Charges	Refers to the Total Charges for the Patient Visit. System generated.
Page Number	Refers to the value used to designate the incrementing page count (record) and total number of pages for the claim. This value is system generated.
Attending Clinician NPI #	Refers to the 10-digit NPI that identifies the Attending Clinician who is expected to certify and recertify the medical necessity of the services rendered and/or who has primary responsibility for the Patient's medical care and treatment. Verify and/or specify Attending Clinician NPI # in SurgiSource from the Billing module > Physician menu > Physician Profile form > Credential page > NPI # field. Remember to click Update to save record. Verify and/or specify the Attending Clinician (and role) for a patient visit in SurgiSource from the Billing module > Visit > Patient Visit > Case tab > Physician field (Physician's Role field for role).
Patient ID #	Refers to the number that uniquely identifies each patient. The Patient ID # is assumed to be the Patient ID # , the letter 'V' and the Visit Number . For example, 11111V5 where Patient ID # = 11111, Alphabet = V and Visit # = 5.
1st Insurance Group #	Refers to the ID#, Control #, or code assigned by the carrier or the plan administrator to identify the group number which the patient is covered. Verify and/or specify 1st Insurance Group # in SurgiSource from the Billing module > Visit menu > Patient Visit form > Insurance page > Insurance for a Visit . Note: You must specify Insurance Group # for secondary (2 nd) and tertiary (3 rd) insurances, if applicable.
1st Other Clinician NPI #	Refers to the 10-digit NPI that identifies the clinician who consulted on or referred the patient's case. See the Attending Clinician description above in order to verify and/or specify the 1st Other Clinician NPI # .

Field	Description								
1st Other Clinician Type	<p>Refers to the 2-digit code describing the type of Other Clinician. The 1st Other Clinician Type is system derived based on the role of the 1st Other Clinician (Referring Provider) specified in Patient Visit > Case tab > Physician Role field.</p> <p>Valid code are:</p> <table> <tr> <th>Code</th><th>Description</th></tr> <tr> <td>DN</td><td>Referring Clinician</td></tr> <tr> <td>ZZ</td><td>Assisting Operating Clinician</td></tr> <tr> <td>82</td><td>Rendering Clinician</td></tr> </table> <p>Note: Required when 1st Other Clinician NPI # is reported.</p>	Code	Description	DN	Referring Clinician	ZZ	Assisting Operating Clinician	82	Rendering Clinician
Code	Description								
DN	Referring Clinician								
ZZ	Assisting Operating Clinician								
82	Rendering Clinician								
Outpatient Site ID #	<p>Refers to the surgical site of the patient surgical service:</p> <ol style="list-style-type: none"> On Campus site = 01 Off Campus sites are to be specified according to the Site Designation on Data Coordinator Forms. <p>Verify and/or specify Outpatient Site ID # in SurgiSource from the Security module > Facility menu > Billing Configuration form > Page 1 tab > Place of Service Code field. Click Update to save entry.</p>								
ICD Diagnosis Code Version Qualifier	<p>Refers to the qualifier code value for the version of International Classification of Disease being used by the Facility:</p> <table> <tr> <th>Qualifier</th><th>Description</th></tr> <tr> <td>9</td><td>ICD-9 Version</td></tr> <tr> <td>0</td><td>ICD-10 Version</td></tr> </table>	Qualifier	Description	9	ICD-9 Version	0	ICD-10 Version		
Qualifier	Description								
9	ICD-9 Version								
0	ICD-10 Version								

Field	Description
E-Code	<p>Refers to the ICD External Cause of Injury (ECI) code that designates the causative event of condition or injury.</p> <p>Note: Effective 10/1/2015, the state of Illinois will only accept a valid ICD-10 code (that designates the causative event of condition or injury) for E-Code on the report.</p> <p>Verify and/or specify E-Codes in SurgiSource from the Billing module > Visit menu > Patient Visit form > Claim tab > Injury Code1, Injury Code2 and/or Injury Code3 fields. Enter ICD-10 codes in the ICD-10 column and/or ICD-9 codes in the ICD-9 column (as applicable).</p> <p>To enter additional E-codes, click the Additional Injury Codes button under these fields on this tab. Enter the applicable E-Code in the appropriate field (or scan for the applicable value). Remember to click Update to save the record.</p> <p>Verify and/or specify E-Codes for your Facility in SurgiSource from the Billing module > Facility > ICD Diagnosis Code form. Click the Add button, enter the ICD code and Description in the appropriate fields then click Update to save the E-Code.</p> <p>Notes:</p> <ul style="list-style-type: none"> • The code must be consistent with patient's age and gender. • Must be a valid ICD E-Code for discharge date. • ICD-10 codes will be populated to the report if present on the Visit, the State Reports module has been configured to populate ICD-10 codes and the specified effective date for populating ICD-10 codes has been met or exceeded. • Illinois will accept up to 8 E-Codes on the report. • For more information on current E-code reporting requirements, please refer to the current Illinois state reporting specifications.
Operating Clinician NPI #	<p>Refers to the 10-digit NPI that identifies the individual who is primarily responsible for performing the surgical procedure(s).</p> <p>See the Attending Clinician description above in order to verify and/or specify the Operating Clinician NPI #.</p>
Billing Provider Facility NPI	<p>Refers to the NPI assigned to the provider submitting the bill.</p> <p>Verify and/or specify the Billing Provider Facility NPI for the Facility in SurgiSource from the Security module > Facility menu > Billing Configuration form > Page 1 tab > NPI # field. Click Update to save entry.</p>
Other Provider Identifier	<p>Refers to the field used by Facilities to specify their current IHA Provider Data Collection ID # until their NPI or NPI subpart is assigned.</p> <p>The IHA Provider Data Collection ID # can be entered in the IHA Provider # field on the File Output dialog box during report generation.</p>

Field	Description																		
Statement Covers Period	<p>Refers to the From and Through dates (beginning and ending dates) of patient care. It is assumed that the Statement Covers Period is the Admission and Discharge Date.</p> <p>Verify and/or specify the Admission and Discharge Date in SurgiSource from the Billing module > Visit menu > Patient Visit form > Admission page.</p>																		
Primary Payer Name	<p>Refers to the Name of the Primary Payer source for the patient.</p> <p>Verify and/or specify Primary Payer for a Patient Visit in SurgiSource from the Billing module > Visit menu > Patient Visit form > Insurance page > Insurance button.</p> <p>It may be necessary to add a Primary Payer in the system. Verify and/or specify a Primary Payer in SurgiSource from the Billing module > Payer menu > Payer Profile form > Profile page.</p> <p>Note: Be sure to add Secondary and Tertiary Payers, if applicable.</p>																		
Race	<p>Refers to the 2-digit code designating the patient's race. Race Codes are populated to the report based on entries made in the SurgiSource Race field.</p> <p>Verify and/or specify Patient Race in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Personal Data page > Race look up menu. Select patient and specify Patient Race from the look up menu. Click Update to save patient record.</p> <p>Adjustments may be required in the Race Code table to verify that your SurgiSource Race Code entries contain the same code and description values referenced below:</p> <table data-bbox="532 1003 1008 1283"> <thead> <tr> <th>Code</th><th>Description</th></tr> </thead> <tbody> <tr> <td>R1</td><td>American Indian or Alaska Native</td></tr> <tr> <td>R2</td><td>Asian</td></tr> <tr> <td>R3</td><td>Black or African American</td></tr> <tr> <td>R4</td><td>Native Hawaiian or Pacific Islander</td></tr> <tr> <td>R5</td><td>White</td></tr> <tr> <td>R6</td><td>Multi-Racial</td></tr> <tr> <td>R7</td><td>Declined</td></tr> <tr> <td>R9</td><td>Other</td></tr> </tbody> </table> <p>Verify and/or specify Race Codes and Descriptions in SurgiSource from the Security module > Utility menu > Table Maintenance > Race Code table. Update Race Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> When the Patient Race field is left blank or missing, SurgiSource will leave this field blank. When Patient Race is invalid, SurgiSource will send the value "R9" for Other. 	Code	Description	R1	American Indian or Alaska Native	R2	Asian	R3	Black or African American	R4	Native Hawaiian or Pacific Islander	R5	White	R6	Multi-Racial	R7	Declined	R9	Other
Code	Description																		
R1	American Indian or Alaska Native																		
R2	Asian																		
R3	Black or African American																		
R4	Native Hawaiian or Pacific Islander																		
R5	White																		
R6	Multi-Racial																		
R7	Declined																		
R9	Other																		

Field	Description								
Ethnicity	<p>Refers to the 2-digit code designating the patient's ethnic background. Ethnic Codes are populated in the report based on entries made in the SurgiSource Ethnic field.</p> <p>Verify and/or specify Patient Ethnicity in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Personal Data page > Ethnic field. Select patient and specify Patient Ethnicity from the look up menu. Click Update to save the patient record.</p> <p>Adjustments may be required in the Ethnic Code table to verify that your SurgiSource Ethnic Code entries contain the same code and description values referenced below.</p> <table data-bbox="537 520 990 646"> <thead> <tr> <th>Code</th><th>Description</th></tr> </thead> <tbody> <tr> <td>E1</td><td>Hispanic or Latino Ethnicity</td></tr> <tr> <td>E2</td><td>Non-Hispanic or Latino Ethnicity</td></tr> <tr> <td>E7</td><td>Declined</td></tr> </tbody> </table> <p>Verify and/or specify Ethnicity Codes and Descriptions in SurgiSource from the Security module > Utility menu > Table Maintenance > Ethnic Code table. Update Ethnicity Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> When the Patient Ethnicity field is left blank or missing, SurgiSource will send "E2" for Non-Hispanic or Latino Ethnicity. When Patient Ethnicity is invalid, SurgiSource will send the value "E2" for Non-Hispanic or Latino Ethnicity. 	Code	Description	E1	Hispanic or Latino Ethnicity	E2	Non-Hispanic or Latino Ethnicity	E7	Declined
Code	Description								
E1	Hispanic or Latino Ethnicity								
E2	Non-Hispanic or Latino Ethnicity								
E7	Declined								

Field	Description																																																						
Admission Hour	<p>Refers to the 2-digit code that specifies the hour during which the patient was admitted for outpatient care. The Admission Hour must be specified using the following codes which are mapped to military time (HH):</p> <table data-bbox="537 352 881 1182"> <thead> <tr> <th>Code</th><th>Code Time AM</th></tr> </thead> <tbody> <tr><td>00</td><td>12:00 – 12:59 midnight</td></tr> <tr><td>01</td><td>01:00 – 01:59</td></tr> <tr><td>02</td><td>02:00 – 02:59</td></tr> <tr><td>03</td><td>03:00 – 03:59</td></tr> <tr><td>04</td><td>04:00 – 04:59</td></tr> <tr><td>05</td><td>05:00 – 05:59</td></tr> <tr><td>06</td><td>06:00 – 06:59</td></tr> <tr><td>07</td><td>07:00 – 07:59</td></tr> <tr><td>08</td><td>08:00 – 08:59</td></tr> <tr><td>09</td><td>09:00 – 09:59</td></tr> <tr><td>10</td><td>10:00 – 10:59</td></tr> <tr><td>11</td><td>11:00 – 11:59</td></tr> <tr><td colspan="2"> </td></tr> <tr> <th>Code</th><th>Code Time PM</th></tr> <tr><td>12</td><td>12:00 – 12:59 Noon</td></tr> <tr><td>13</td><td>01:00 – 01:59</td></tr> <tr><td>14</td><td>02:00 – 02:59</td></tr> <tr><td>15</td><td>03:00 – 03:59</td></tr> <tr><td>16</td><td>04:00 – 04:59</td></tr> <tr><td>17</td><td>05:00 – 05:59</td></tr> <tr><td>18</td><td>06:00 – 06:59</td></tr> <tr><td>19</td><td>07:00 – 07:59</td></tr> <tr><td>20</td><td>08:00 – 08:59</td></tr> <tr><td>21</td><td>09:00 – 09:59</td></tr> <tr><td>22</td><td>10:00 – 10:59</td></tr> <tr><td>23</td><td>11:00 – 11:59</td></tr> </tbody> </table> <p>The Admission Hour is automatically populated from data captured when the patient is admitted to service.</p>	Code	Code Time AM	00	12:00 – 12:59 midnight	01	01:00 – 01:59	02	02:00 – 02:59	03	03:00 – 03:59	04	04:00 – 04:59	05	05:00 – 05:59	06	06:00 – 06:59	07	07:00 – 07:59	08	08:00 – 08:59	09	09:00 – 09:59	10	10:00 – 10:59	11	11:00 – 11:59			Code	Code Time PM	12	12:00 – 12:59 Noon	13	01:00 – 01:59	14	02:00 – 02:59	15	03:00 – 03:59	16	04:00 – 04:59	17	05:00 – 05:59	18	06:00 – 06:59	19	07:00 – 07:59	20	08:00 – 08:59	21	09:00 – 09:59	22	10:00 – 10:59	23	11:00 – 11:59

Discharge Hour	<p>Refers to the two-digit code that specifies the hour during which the patient was discharged from outpatient care. The Discharge Hour must be specified using the codes mapped to military time. (See Admission Hour above for the list of 2-digit codes.)</p> <p>Verify and/or specify Discharge Hour in SurgiSource from the Billing module > Visit menu > Patient Visit form > Admission tab > Discharge Time field.</p>																																																						

Field	Description
Accident State	<p>Refers to the state in which the patient's auto accident occurred. If Accident State is applicable, this is a required field if an E-Code in the range of 810.0 – 819.9 was reported (for ICD-9 codes).</p> <p>Note: When ICD-10 E-Codes are populated to the Illinois ASC State Report for a Visit, Accident State is required on the state report in SurgiSource if the reported E-Code falls within the list of industry standard ICD-10 E-Codes for motor vehicle traffic accidents.</p> <p>Verify and/or specify Accident State in SurgiSource from the Billing module > Visit > Patient Visit form > Claim tab > Place of Accident drop-down.</p> <p>Verify and/or specify State Codes and Descriptions in SurgiSource from the Security module > Utility menu > Table Maintenance > State Code table. Update State Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> • Be sure to check the Auto Related box and enter the correct auto accident E-Code (for ICD-9 and/or ICD-10 codes as applicable) in either the Injury Code 1, 2 or 3 fields (as applicable) on the Patient Visit form > Claim tab to ensure that the Accident State populates correctly to the state report. • For more information on entering E-Codes, please see the E-Code entry in this table. • When the E-Code is out of range or has not been entered in one of the Injury Code 1, 2 or 3 fields, the system will not populate Accident State to the state report • For a list of industry standard ICD-10 E-Codes for motor vehicle traffic accidents, please refer to the External Cause of Injury Mortality Matrix for ICD-10 (Motor Vehicle Traffic section) published by the CDC at the following link: • http://www.cdc.gov/nchs/data/ice/icd10_transcode.pdf • If the patient's accident occurred in a Foreign Country, an Accident State code of '99' must be populated to the state report for this element. <p>Please contact Source Medical Client Services for data entry instructions and to ensure that the correct Accident State code (indicating Foreign Country) is populated to the state report:</p> <p>Telephone: 1-800-447-0104 Fax: 203-949-6298 Email: surgisourcesupport@sourcemed.net</p>
Condition Employment Related	<p>If applicable, refers to the condition code designating whether the patient's condition is due to an employment related accident. Only one code is accepted. Verify and/or specify Condition Employment Related code in SurgiSource from the Billing module > Visit > Patient Visit form > Claim page.</p> <p>Note: A condition code of "02" code indicates that the patient alleges that the medical condition is due to environment/events resulting from employment.</p>

Field	Description
Accident Employment Related Occurrence Code	<p>If applicable, refers to the occurrence code designating whether the patient's accident occurred during employment related duties. Only one code is accepted.</p> <p>Verify and/or specify Accident Employment Related Occurrence Code in SurgiSource from the Billing module > Visit > Patient Visit form > Claim page.</p> <p>Note: An Occurrence code of "04" indicates the existence of an accident allegedly relating to the patient's employment.</p>
Crime Victim Occurrence Code	<p>If applicable, refers to the occurrence code designating whether the patient was a victim of a crime, which caused the patient's injuries. Only one code is accepted.</p> <p>Verify and/or specify Crime Victim Occurrence Code in SurgiSource from the Billing module > Visit menu > Patient Visit form > Claim page.</p> <p>Note: An Occurrence code of "06" code indicates the existence of a medical condition resulting from alleged criminal action committed by one or more parties.</p>
Patient Reason for Visit Diagnosis Code (1 - 3)	<p>Refers to the valid ICD diagnosis code describing the patient's reason for visit at time of outpatient registration. The Patient Reason for Visit Diagnosis Codes for all <i>unscheduled outpatient visits</i> should be documented.</p> <p>Note: Effective 10/1/2015, the state of Illinois will only accept a valid ICD-10 code (describing the patient's reason for visit at time of outpatient registration) for Patient Reason for Visit Diagnosis Code on the report.</p> <p>Verify and/or specify Patient Reason for Visit Diagnosis Code in SurgiSource from the Billing module > Account menu > Enter Charges form > Additional Fields tab > Reason For Visit 1-3 fields. Enter ICD-10 codes in the ICD-10 column and/or ICD-9 codes in the ICD-9 column (as applicable). Click Update to save change.</p> <p>Notes:</p> <ul style="list-style-type: none"> • The code must be consistent with the patient age and gender. • ICD-10 codes will be populated to the report if present on the Visit, the State Reports module has been configured to populate ICD-10 codes and the specified effective date for populating ICD-10 codes has been met or exceeded. • You may add up to 3 Reasons for Visit Diagnosis Codes.

Field	Description
1st CPT/HCPCS Service Line Item (1 - 22)	<p>Refers to the CPT/HCPCS codes plus modifiers for outpatient services. Must be a five-digit code (plus up to four 2-digit modifiers allowed for any service item). Also, the codes/modifiers must be valid for discharge date.</p> <p>Verify and/or specify CPT/HCPCS codes for a patient in SurgiSource from the Billing module > Visit menu > Patient Visit form > Case page.</p> <p>Notes:</p> <ul style="list-style-type: none"> You may also add CPT/HCPCS codes from Account > Enter Charges > Billed Services. There must be a related Revenue Code and Charge for each service line item on the patient record. <p>Adjustments may be necessary to add CPT/HCPCS codes in the system. Verify and/or specify CPT/HCPCS codes in SurgiSource from the Billing module > Facility > CPT® Code form. See COMPdata requirements for CPT/HCPCS codes.</p>
1st CPT/HCPCS Service Date (1-22)	<p>Refers to the service date for each CPT/HCPCS in the service line.</p> <p>Verify and/or specify CPT/HCPCS Service Date in SurgiSource from the Billing module > Visit > Patient Visit > Admission Page > Schedule Date field.</p>
Patient County Code	<p>Refers to the County Code of the patient's principal residence at the time of admission.</p> <p>Verify and/or specify County Code in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Address, Phone page > County drop-down. Select patient then select the county from the County drop-down. Click Update to save the patient record. The County Code can also be populated automatically when the User enters a Zip code in the Zip field.</p> <p>Verify and /or specify County Codes and Descriptions in SurgiSource from the Security module > Utility > Table Maintenance > County Code table. Update County Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Verify and/or specify the County Code for a Zip Code from the Security module > Utility > Table Maintenance > Zip Code table > select <i>Zip Code</i> entry > County Code field. Update the County Code value for the Zip Code entry as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> The Patient County Code must be a valid 5-digit code for a county in Illinois or Border States. The first two-digits of the code represent the state and the last three digits represent the county code. For example: State of ILL = 01 Rockford County = 016 The patient county code is 01016 '99999' may be used to designate 'Other' for any locations outside of Illinois and bordering states.

Field	Description
Patient State	<p>Refers to the State of the patient's principal residence at the time of service.</p> <p>Verify and/or specify Patient State for a Patient Visit in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Address, Phone page > State. Select patient then select the state from the State drop-down. Click Update to save the patient record. The Patient State can also be populated automatically when the User enters a Zip code in the Zip field.</p> <p>Verify and /or specify State Codes and Descriptions in SurgiSource from the Security module > Utility > Table Maintenance > State Code table. Update State Codes and Descriptions as appropriate then click Update to save the change.</p> <p>Verify and/or specify the Patient State for a Zip Code from the Security module > Utility > Table Maintenance > Zip Code table > select <i>Zip Code</i> entry > State field. Update the State value for the Zip Code entry as appropriate then click Update to save the change.</p>
Primary Insured's Unique Identifier (Beneficiary/Policy #)	<p>Refers to the unique number assigned by the health plan to the individual under whose name the Primary insurance benefit is carried.</p> <p>Verify and/or specify Primary Insured's Unique Identifier in SurgiSource from the Billing module > Visit menu > Patient Visit form > Insurance tab > Insurance button > Insurance for a Visit > Policy tab > Patient Insured ID</p> <p>Notes:</p> <ul style="list-style-type: none"> Effective with 10/1/12 discharges, the Primary Insured's Unique Identifier is required for all patients except those with a Primary Payer of Self Pay or Charity. If the Primary Insured's Unique Identifier has not been entered in the Patient Insured ID field, this value will pull from the Policy Number field on the Policy tab.
Patient Last Name	<p>Refers to the patient's legal last name.</p> <p>Verify and/or specify Patient Last Name in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Last Name field.</p>
Patient First Name	<p>Refers to the patient's legal first name. Verify and/or specify Patient First Name in SurgiSource from the Billing module > Patient menu > Patient Demographics form > First Name field.</p>
Patient Middle Name	<p><i>Optional.</i> Refers to the patient's legal middle name, if available. Verify and/or specify Patient Middle Name in SurgiSource from the Billing module > Patient menu > Patient Demographics form > MI field.</p>

Field	Description
Patient Street Address	<p>Refers to the address of the patient's principal residence at the time of service. Verify and/or specify the Patient Street Address in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Address, Phone tab > Address Line 1 and Address Line 2 fields.</p> <p>Notes:</p> <ul style="list-style-type: none"> • If the Patient is homeless, check the Homeless box on the Address, Phone tab. As a result, 'Homeless' will be populated to Patient Street Address. Also, '00000' will be populated to Patient Zip Code on the state report (indicating a status of Unknown). • If available, be sure to enter the Patient's shelter address in the appropriate fields (or other temporary address) if the Homeless box is checked in order to facilitate the processing of claims.
Patient City	<p>Refers to the City of the patient's principal residence at the time of service. Verify and/or specify the Patient City in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Address, Phone tab > City field. Click Update to save the patient record. The Patient State can also be populated automatically when the User enters a Zip Code in the Zip field.</p> <p>Verify and/or specify the Patient City for a Zip Code in SurgiSource from the Security module > Utility > Table Maintenance > Zip Code table > <i>select Zip Code entry</i> > City field. Update the City value for the Zip Code entry as appropriate then click Update to save the change.</p> <p>Notes:</p> <ul style="list-style-type: none"> • If the Patient is homeless, check the Homeless box on the Address, Phone tab. As a result, 'Homeless' will be populated to Patient City. Also, '00000' will be populated to Patient Zip Code on the state report (indicating a status of Unknown). • If available, be sure to enter the Patient's shelter address in the appropriate fields (or other temporary address) if the Homeless box is checked in order to facilitate the processing of claims.

Field	Description
Last 4 Digits of SSN	<p>Refers to the last four digits of the patient's social security number (SSN). Verify and/or specify the patient's SSN in SurgiSource from the Billing module > Patient menu > Patient Demographics form > Personal Data tab > SSN field.</p> <p>Notes:</p> <ul style="list-style-type: none"> • All nine digits of the social security number must be entered in the SSN field or the patient record cannot be saved. • If the Patient is a foreign national with a U.S. work visa but does not have a SSN, Users may report the Patient's Tax Identification Number (TIN) in the SSN field. Only the last 4 digits of the number will be populated to the report. • If the Patient refused to provide their SSN (Refused to Provide SSN box is checked), "0000" will be populated for this field on the report. • If the patient is a Foreign Visitor (nonresident), enter nines ('9s') in the SSN field. Only "9999" will be populated for this field on the report.

Chapter 8: Populating Accounts with Insurance

Since the Illinois Quarterly report is based upon generated claims, it will not include accounts with an Insurance Carrier associated to an account unless the user generate the claim.

8.1: Populating Self-pay Accounts

Billed self-pay claims will be included in the report. To force **Self-pay** accounts to be included in the IL ASC Quarterly Report, perform the following tasks:

1. Access the default **Self -pay** account code in **Payer Profile**.
2. In the **Claims** section, click the **Print Insurance Form** checkbox.
3. From the **Insurance Form ID** drop-down menu, select a **HCFA 4.5** format.

Note: Printer type is not an issue with setting up self-pay claims.

4. Before generating the state report, go to **Claim to Generate** and specify the following information:
 - a. **Date Range** for reporting period.
 - b. **Insurance Form ID** attached to the **Self-pay** payer code.
 - c. Default **Self-pay** account code under **Payer Type**.
5. Click **Print**. When the image of a printed claim appears on screen, click out of the image since the claims do not have to be physically printed.

When the IL ASC Quarterly State Report is generated, the selected **Self-pay** accounts will be included in the output file.

If you only want to produce self-pay claims at the time you generate the state report, un-check **Print Insurance Form** in **Payer Profile** after completing the claim run. This option can be changed back to active when you are ready to generate the next quarterly report.

8.2: Payer Classification

The **Payer Type** and **Name** must be present and valid. The code must identify the **Payer**, **Product Type** and actual name of the **Payer** the Facility expects to receive payment from.

Verify and or specify that the **Payer Type** and **Name** have been entered in the **Payer Payment Source** Table in SurgiSource from the **Security** module > **Utility** form > **Table Maintenance** page. Double-click the desired **Table** to update or add table. Remember to click the **Update** button to save entry.
